

**TECHNICAL DATA SHEET** 

# CLEAN+ Heavy Duty Exterior Dry Wash Code 2515 CH8000

## DESCRIPTION

CLEAN+ Heavy Duty Exterior Dry Wash [CH8000] is a unique dry wash heavy duty cleaner, based on an emulsifiable solvent and biodegradable surfactant system, especially formulated for use on all exterior aircraft surfaces. CH8000 will break and remove heavy oil and smoke trail deposits associated with the landing gear and engine exhaust areas of aircraft. The waterless cleaning method is safe to use while maintenance is performed at the same time, reducing maintenance downtime and turnaround time. Surfaces are left clean, shiny, and glossy.

# **APPROVALS & SPECIFICATIONS**

- Boeing D6-17487
- AMS 1526C

# **FEATURES & BENEFITS**

- · No water necessary to clean the aircraft
- Excellent cleaning and degreasing with no dust
- No paint dulling, does not contain abrasives
- Easy application by spraying, brushing, or wiping
- · Clings to the surface for maximum cleaning
- High gloss with no streaking
- · Short dwell-time and minimal agitation requirements
- · Tested and approved according to international aviation standards
- · Contains no ammonia or phosphates

## **DIRECTION FOR USE**

- For areas where there is heavy grease, oil, or hydraulic oil build-up we recommend wiping down the area with Callington CLEAN+ Biodegradable Aircraft Exterior Cleaner (ACTASOL) first
- Shake or stir well before use
- Dilution prior to use:
  - Heavy soiling: use undiluted
  - Medium soiling: dilute 1:1 with water
  - Light soiling: dilute 1:4 with water

(Discard diluted solutions within 24 hours)

- Apply in smooth continuous strokes over the surface in sections with a clean cloth, mop, brush, pad, or spray equipment. For heavy soiling, spread and agitate the product over the surface
- Leave for five minutes.
- Remove completely by wiping with a clean microfiber/soft cotton cloth while the product is still wet. Replace cloth before it becomes saturated with soil.
